Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI
FROM : GUY HOTTEL; SAC, WASHINGTON FIELD
SUBJECT: GREGORY
ESPIONAGE - R

DATE: 3/22/49

Re Abe Brothman

Reference is made to Bureau letter of March 11, 1949, instructing that the Gregory Case be reviewed and separate files opened for each subject and important associate of subjects. Further that all data pertaining to each individual appearing in various files in the Washington Field Office should be incorporated in a separate summary report and furnished to the office where the subject is presently residing, together with recommendations for security index card in the new separate case.

Preliminary examination of the Gregory Case indicates that the number of such individuals will exceed seventy. Many of these are residents of New York City, and have never been actively investigated by the Washington Field Office, and have never lived in Washington, D.C. Several others were out-of New York for a time, but returned there prior to active investigation in this case. Some of these are JOHN A. T., LAUNCHLIN CURRIE, and PETER RHODES. In some instances no doubt, New York has already made separate investigative files, and will have many references pertaining to these subjects.

In view of the above, it is respectfully suggested that the New York Division is in a better position to prepare summaries on certain subjects presently residing in the New York area where their presence will be a continuing responsibility of that Division.

There are a number of subjects, however, now in New York, who were investigated at length by this office, and Washington Field Office will prepare summary reports on these individuals in any event.

Suggested breakdown of cases to be prepared by the New York Division and the Washington Field Office is set forth hereafter. It is noted that in several instances separate reports have been submitted heretofore. However, these are not indicated separately at this time, and a complete tabulation will be furnished at a later date.

Re: GREGORY - ESPIONAGE-R

It is respectfully requested that the Bureau carefully consider the listings above with the view to having the separate summary reports prepared to best advantage, bearing in mind that the office where the individual has lived for a lengthy period, and where most of the investigation has been conducted, should be better equipped to prepare the report. This is particularly true where the subject still resides within that territory.

In the event the Bureau or the New York Division suggests that certain individuals listed above could be better handled by one or the other offices, it would be appreciated if this office could be advised as to such cases.

You will recall that investigation in the Gregory Case was instituted by the Bureau in November, 1946, on the basis of information furnished by Elizabeth David Dugdale (Confidential Informant Dugdale) an admitted Soviet espionage agent. During the course of her espionage, Gregory involved numerous individuals in her espionage activities. She also recruited others with whom she had been associated during the time that she was openly affiliated with the Communist Party and its front groups.

The results of investigation in the Gregory Case, concerning various and sundry individuals involved, has to date been reported in the Gregory file. An extensive investigation has been conducted concerning those individuals, who according to Gregory were primarily involved in Soviet espionage. This investigation included interviews with many of those individuals.

Gregory has mentioned many individuals whom she claims were known to her by their first names only, such as "Bill", "Alice" and "Charlie". Separate investigation has been conducted on each of the aforementioned unknown subjects in an effort to identify them. The individual known as "Alice" has been identified as Alice Johnson, the subject in the case entitled "Johnson, Alice" (Case No. 38-1000). In the future, any investigation conducted in connection with New York origin in the future, any investigation pertaining to association with the above subjects should be reported in their respective cases.

The Washington Field Office is requested to keep the original file in the Gregory Case and should thereafter open separate investigative files on each individual mentioned by Gregory as well as other individuals who through investigation in connection with the Gregory Case appear to warrant further attention by the Bureau. Such files should be opened under the appropriate category, such as Category 1 or 2, Assignment - 10, or Security Index - 20.

In connection with the breakdown of the Gregory Case, the Washington Field Office should incorporate into separate security indices the original case file complete information appearing in the file of the Washington Field Office concerning the individual subjects mentioned by Gregory. A search conducted prior to the investigation in the Gregory Case revealed that the telegram test was conducted in connection with the Gregory Case. A compilation of those individual security indices and the results thereof has been verified to communication board. It is recommended for the preparation of a Security Index Card in the manner indicated in such actions on the other persons.

FBI - NEW YORK
APRIL 12, 1949
FBI - NEW YORK

After all information has been obtained in accordance with Bureau instructions pertaining to the Security Index Program, authorization to close the case should be requested of the Bureau, setting forth the reasons why the matter no longer deserves investigative attention.

Should it appear that additional investigation is necessary in order to determine if the subject is engaged in Soviet espionage or other activities inimical to the best interests of the United States, the case should be kept in a pending status and further investigation should immediately be conducted in a pending status and further investigation should immediately be conducted. Investigations in these cases should be handled thoroughly and expeditiously. The investigation should cover all logical investigative steps in accordance with existing Bureau policies relating to espionage and security investigation.

Executive immediately, all reports and other correspondence with reference to individuals in the Gregory Case could be furnished to the Bureau and interpreted to individuals in the Gregory Case could be furnished to the Bureau and interpreted to individuals in the separate case file.

The Gregory Case should be maintained in a pending status and should be utilized as a central file for information relating solely to the foregoing allegations in that case.

The Field Office File containing all evidence to be submitted to the Bureau in the Gregory Case, the Office of Legal in the Bureau and will be, of course, depend upon the present address of such individual.

This matter should receive your immediate attention and the Bureau should be advised not later than thirty days from the receipt of this communication the status of the prosecution of the Gregory case by your office.

Reference is made to your teletype of May 8, 1950, stating that HARRY GOLD is presently reported to be residing at 6623 Lindred Street, Philadelphia, and is employed in Philadelphia.

Enclosed herewith is a photostatic copy of Bureau letter dated May 1, 1950, in instant matter. This letter directs that simultaneous and separate interviews be conducted with subject in this case. This letter is self-explanatory.

The report of Special Agent JOHN R. MURPHY, dated at New York, May 9, 1950, a copy of which was sent to your office, contains the summary of all the information in the possession of this office concerning HARRY GOLD.

GOLD testified before Special United States Grand Jury sitting for the Southern District of New York, on July 31, 1947. His testimony has been reviewed, and the following portions of it are being forwarded to you for your assistance in interviewing GOLD, which interview will be conducted upon receipt of word from either this office or the Bureau. It should be borne in mind that the present plan is to interview these people on Thursday, May 11, 1950, or immediately thereafter.

ABRAHAM BROTHMAN, was., [REDACTED] B
ESPIONAGE - R

In connection with the proposed interview of GERHARD N. WOLLAN at your office on May 15, 1950, there are being enclosed, herewith, for possible exhibition to WOLLAN in the course of the interview, photographs of the following individuals, which photographs are as follows:

1. JACOB COLAS
2. VLADIMIR A. TVERIANOVICH
3. IVAN I. MAIOROV
4. JOSEPH A. ROHINS
5. ELIZABETH BENTLEY

TVERIANOVICH, as will be noted in the report of SA JOHN R. MURPHY dated April 5, 1950, was being contacted by BROTHMAN in 1946 regarding possible obtaining by BROTHMAN of the contract through Amtorg.

A Mr. MAIOROV was mentioned as a possible contact for BROTHMAN at Amtorg following the departure of TVERIANOVICH for Russia.

ROHINS has been named by FUCHS as resembling his American contact, but investigation to date has neither established, nor eliminated ROHINS as FUCHS' United States contact. To date, also, there is no known connection between ROHINS and BROTHMAN.

BENTLEY, of course, is the individual who was sent to contact BROTHMAN by COLAS in 1940.

Further suggestion is being made that in the event these photographs are used in the course of the interview that they be included with others now available in the Atlanta files in other types of cases.

Re: ABRAHAM BROTHMAN;
ESPIONAGE - R

On 5/15/50, at approximately 2:55 P. M., I advised Mr. A. H. Belmont of the Bureau that we had OSCAR VAGO in the office, that we had not heard from Atlanta, but I believed they had WOLLAN in down there, they were going to pick him up after his classes there rather than have him go to Athens this afternoon. Philadelphia has GOLD under surveillance and they are going to try to pick him up later.

At 6:00 P. M. this evening, BROTHMAN and MOSCOWITZ will be interviewed at the NYO in the presence of their attorney FOWLER HAMILTON.

We are still trying to locate BARRISH. He is making a business trip and is expected back by 6:00 P. M.

Los Angeles is to go ahead on KORCHIEN when they find him out there.

Re: ABRAHAM BROTHMAN, was;
ESPIONAGE - R

On the evening of 5/12/50, I spoke to Inspector A. H. Belmont at the Bureau and pointed out to him that the confidential informant who advised us of some of the contacts of BROTHMAN had pointed out that one of them was named ROLF S. WOLLAN. WOLLAN received \$550.00 retainer fee from BROTHMAN in 1946. The Selective Service record of ROLF WOLLAN's brother, GERHARDT, who was a previously known associate of BROTHMAN, showed that in 1943, he listed as a dependent, his brother, ROLF S. WOLLAN who, in 1943, was 31 years old and in 1943 was residing in England.

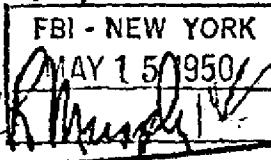

B1

I told Mr. Belmont I wanted to consider with him the advisability of postponing the interviews until we had obtained a picture and some background on ROLF WOLLAN whose latest address, according to confidential informant, was Glenwood, Minnesota.

After discussing the possibilities, Mr. Belmont and I agreed that it would not serve the ultimate purposes of the case to postpone the other interviews that were already set up for the morning of 5/15/50, based upon this fragmentary information in view of what we know of the case at this time. We further agreed that Minneapolis Office should be instructed to immediately determine the whereabouts of ROLF WOLLAN to obtain background on him and a picture, if possible, which should be forwarded to the Bureau, NY, and Boston immediately. Washington Field was also to be requested to search the State Department records for any foreign travel during the pertinent periods on the part of ROLF WOLLAN.
